## Executive Summary

This deliverable details the communication, dissemination, and exploitation activities of the BuiltHub project throughout its 48 month duration. It outlines the undertaken activities and quantifies their impact, as executed by the BuiltHub project partners.

Activities are described according to the KPI categories identified in the Grant Agreement and Description of Action (DoA), which are: One-on-one meetings; Stakeholder dialogues; Workshops and webinars; Strategic panels; Pioneer Users; Ambassador Group; Technical scientific presentations and publications; Website and newsletters; Social media; 3rd party events; Popular articles; Press work (releases, publications, etc).

Each section details the specific communication, dissemination, or exploitation actions undertaken—including titles, locations, and leading partners—while also identifying the approximate reach, target organizations, and types of individuals engaged, providing links to publicly available evidence where feasible.
